SUMMARY

Full-stack developer with hands-on experience building and maintaining real-world E-Commerce, ERP, CMS, CRM, portal, and dashboard applications using React, Next.js, TypeScript, Node.js, NestJS, Laravel, and MySQL/PostgreSQL. Experienced in frontend development, REST API integration, and backend services while working collaboratively on team-based projects. Brings six years of professional experience in banking, with a strong foundation in data analysis, reporting automation, and cross-team coordination.

TECHNICAL SKILLS

Languages & Markup: TypeScript, JavaScript, HTML, CSS, PHP

Frontend: React, React Native, Next.js, Bootstrap, Tailwind CSS, Sass, jQuery

Backend: Node.js, NestJS, Laravel

API & Integration: REST API, REST API Integration

Databases: MySQL, PostgreSQL

Other: Data Analysis & Reporting, Process Automation, MS Office Suite

Languages: English (fluent, professional working proficiency), Burmese (native)

EXPERIENCE

Junior Full-Stack Developer | O-Technique Myanmar International (*Aug 2026 – Present*)

- Develop and maintain features across E-Commerce, ERP, CMS, CRM, portal, and dashboard projects, building front-end interfaces with React and Next.js and back-end services with Node.js, NestJS, and Laravel.
- Collaborate with the development team to translate business requirements into working features across the full stack.

On-the-Job Training Intern, Full-Stack Dev | O-Technique Myanmar International (*Jan 2026 – Aug 2026*)

- Completed a 6-month on-the-job training program, applying full-stack skills to real-world E-Commerce, ERP, CMS, CRM, and dashboard project work with the development team.

Self-Directed Web Development Study | W3Schools, freeCodeCamp & other coaching resources (*2022 – 2025*)

- Studied HTML, CSS, and JavaScript fundamentals independently alongside full-time work at CHID Bank, leading to enrollment in a structured full-stack bootcamp.

Full-Stack Developer Bootcamp | O-Technique Myanmar International (*2025 – Jan 2026*)

- Completed a structured, full-stack development program covering HTML, CSS, JavaScript, Bootstrap, Tailwind, Sass, jQuery, PHP, Laravel, Node.js, React, React Native, Next.js, NestJS, MySQL, and PostgreSQL.
- Built multiple guided and independent projects to apply front-end and back-end concepts in a production-style workflow.

Senior Assistant, Data Analysis and Reporting | CHID Bank (*Jun 2024 – Dec 2024*)

- Maintained critical banking data in structured formats and issued reporting-integrity instructions across coworkers, departments, and branches.
- Prepared and managed reports requested directly by the Central Bank of Myanmar, the Board of Directors, C-suite executives, and department heads for high-level meetings, while continuing all Junior Assistant duties.

Junior Assistant, Data Analysis and Reporting | CHID Bank (*2019 – 2024*)

- Produced recurring reports using the MS Office suite for customer, branch, department, inter-bank, and government-related data.
- Designed and integrated an automated reporting process, reducing manual effort for recurring data submissions.

Assistant | Vakok Online Games (*2018 – 2019*)

- Supported users with game-related issues and assisted in testing game integrity and functionality during development.

PROJECTS

- E-Commerce Platform — contributed to product catalog, cart, and checkout features as part of a full-stack team project.
- Enterprise Resource Planning (ERP) & CRM Systems — built modules for internal business process management and customer data tracking.
- Content Management System (CMS) — developed content creation, editing, and publishing workflows.
- Portal & Dashboard Applications — built data-driven dashboard views and user portals with React/Next.js front ends.

EDUCATION

Post-Graduate Diploma in Business — Yangon University of Economics | 2022

Master of Business Administration (MBA) — Myanmar Management Institute | 2021

Bachelor of Science in Botany — West Yangon University | 2018
